BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 36 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. This report reviews the status of energy efficiency and renewable energy legislation introduced during the 109th Congress. Action in the first session has focused on the omnibus energy policy bills H. R. 6 and S. 10 (Energy Policy Act of 2005). H. R. 6 contains many, if not most, of the energy efficiency and renewable energy provisions in the conference report on H. R. 6 from the 108th Congress. One key exception is the absence of a proposal to extend the renewable energy production tax credit (PTC), which is due to expire at the end of 2005. H. R. 6 would authorize or reauthorize most energy efficiency and renewable energy programs. It also would establish several new commercial and consumer product efficiency standards, set new goals for energy efficiency and renewable energy in federal facilities and fleets, expand the Energy Star products program, reform hydropower relicensing, expand programs for hydrogen fuel cell buses, and set a renewable fuels standard for increased use of ethanol and biodiesel. The Senate Committee on Energy and Natural Resources reported S. 10 on June 9, 2005. The bill contains many of the same non-tax energy efficiency and renewable energy provisions that are in H. R. 6. One notable difference is . . . This item ships from La Vergne, TN. Paperback.
