So remarked Bacon of a country which is now one of the least considerable of the powers of Europe, ignorant that one day the brave expression would be a simple truth when applied to his own. In like manner, it perhaps never occurred to Gibbon that the phrase he seems to delight so much in repeating, the Roman World, might be adopted and modified with more than equal propriety by future historians of the British empire. Rome was great and powerful at a time when the rest of the world was mean and weak, but England is a giantess even among the proudest nations of the earth; and as for the extent of her territory, to use the felicitous language of Webster, her morning drumbeat following the sun, and keeping company with the hours, circles the earth daily with one continuous and unbroken strain of its martial airs.
