Such a bone, as well as a skeletonized leaf, may be preserved in alcohol or in a 50 per cent aqueous solution of glycerin. THE MUSCLES AND THE CARRIAGE OF THE BODY It is a law of physics that a body at rest will remain at rest forever, unless some force sets it in motion by pushing or pulling on it. For example, it is the pulling and pushing of the hand that sends a thrown ball upward into the air. It is the pull of the earth that brings the ball down. It is the push of the gases that come from the explosion of the powder that sends the projectile from a great gun. It is the pressure of the steam in the cylinders of an engine that sets the machinery in motion and gives it the power...
